

ADITYA AYUSHMAN SAHOO

AI & Machine Learning Undergraduate — Computer Vision & Cloud AI Enthusiast

☎ 8327798741 ✉ adityaasahoo@gmail.com 🔗 LinkedIn 🌐 GitHub 📍 chennai, India

PROFESSIONAL SUMMARY

AI and Machine Learning undergraduate with strong interests in Computer Vision, Deep Learning, Cloud Computing, and Intelligent Systems. Experienced in developing real-time AI analytics platforms, cloud optimization systems, and image processing applications using modern machine learning frameworks and scalable backend technologies. Passionate about building impactful AI-driven solutions for real-world problems.

WORK EXPERIENCES

Summer Intern Internship Syllogistek Systems Private Ltd. - Developed software solutions to address AI-related challenges during the internship. - Collaborated with technical teams to improve implementation workflows and enhance system processes. Technologies / Skills Used : Generative Ai, keras, PyTorch, ChatGPT	Jun 2025 - Jul 2025 India
Summer Intern Internship Silicon Institute of Technology (SIT) - Gained practical exposure to software development methodologies and emerging technologies. - Created collaborative technical learning modules and implemented project-based initiatives. Technologies / Skills Used : Python, Machine Learning, Deep Learning	Jun 2024 - Jul 2024 Bhubaneswar, India

PROJECTS

Cloud Computing Resource Optimizer - Developed an intelligent cloud resource optimization system using Machine Learning and Reinforcement Learning techniques - Implemented workload prediction models using XGBoost and Random Forest for CPU and memory forecasting - Integrated Deep Q-Network (DQN) based scheduling for dynamic resource allocation optimization - Added Explainable AI mechanisms to improve model transparency and decision interpretability Technologies / Tools Used : Python, XGBoost, Random Forest	Jan 2026 - Present
CrowdCount: Multi-Zone Real-Time Crowd Intelligence System - Developed an AI-powered crowd analytics platform using YOLOv8 for real-time people detection and multi-zone crowd monitoring - Built a dual-pipeline architecture supporting live dashboard monitoring and offline batch video analytics - Implemented centroid tracking, heatmap visualization, line-crossing detection, and region-of-interest based analytics - Designed a FastAPI backend for synchronized real-time metrics, alert management, and structured report generation Technologies / Tools Used : Python, YOLOv8, FastAPI, OpenCV	Feb 2026 - Present
Clear Pixel - Built a grayscale image enhancement and filtering system for image clarity improvement and noise reduction - Implemented Gaussian Blur, Sobel Edge Detection, Laplacian, and Sharpening filters using manual convolution techniques - Developed an interactive visualization interface for real-time image processing analysis Technologies / Tools Used : Python, OpenCV, NumPy, Matplotlib	2025 - 2025

SKILLS

Databases :	MySQL, PostgreSQL, Supabase
Frameworks & Libraries :	Machine Learning, Deep Learning, Computer Vision, YOLOv8, Reinforcement Learning, FastAPI, OpenCV, TensorFlow, NumPy, Matplotlib, React.js
Languages :	English, Hindi, Spanish, Odia
Programming Languages :	Python, Java, SQL, JavaScript
Tools & Platforms :	Git, REST APIs, Blockchain, IPFS

EDUCATIONS

SRM Institute of Science and Technology Chennai, India <i>Bachelor of Technology in Artificial Intelligence</i> Completed coursework in Artificial Intelligence	Jun 2023 - Present
D.A.V. Public School, Chandrasekharpur Bhubaneswar, Odisha <i>CBSE Higher Secondary Education (PCM)</i> - Completed CBSE curriculum with specialization in Physics, Chemistry, and Mathematics - Built foundational programming knowledge in Python and developed analytical and problem-solving skills during schooling	Jan 2009 - May 2023

CERTIFICATIONS

NPTEL Certified Programming in Java NPTEL	Jul 2024
Networking Basics Cisco	Nov 2025

LEADERSHIP & ACTIVITIES

Committee Member Aaruush, SRM University Committee Member of Aaruush	Sep 2023 – Aug 2024 India
Committee Head Aaruush, SRM University Committee Head of Aaruush	Aug 2024 – Present India
Committee Member SRM MUN Society Committee Member of SRM MUN Society	Oct 2023 – Present India
Event Volunteer (Selected by BookMyShow) Ed Sheeran India Tour 2025 - Selected as an official volunteer for the Ed Sheeran India Tour 2025 event operations in Chennai - Assisted in crowd coordination, audience management, and large-scale event execution activities	Feb 2025 Chennai, India

LANGUAGES

English - Hindi - Full Professional - Spanish - Limited Working - Odia - Native/Bilingual	Full Professional
